2 SCU boxes are rough in rear section. At most I only recommend two. Then use 2x 1 SCU. Be aware, boxes tend to float up out the roof.

Caterpillar
576 SCU

BUG NOTE: The Caterpillar has a bug with this front section where you cannot fit 24 SCU boxes. There is no room for them to go all the way back. Instead if manually loading, (from my testing) plan on 2x 16scu as well as a row of 1 or 2 SCU in the far back. Autoloading fills the space, but seems to prefer 3x 16 SCU.
